Ways you can protect our air

- 57. Use environmentally friendly gas cans with features such as cut-off valves to reduce harmful fumes.
- 58. Avoid the drive-thru lanes.
- 59. Don't idle in the carpool line—the emissions are bad or children and adults.
- 60. Report smoking vehicles to your local air agency.61. Don't use your

wood stove or fireplace when air quality is poor.

62. Avoid slow-burning, smoldering fires.

- 63. Burn seasoned wood—it burns cleaner than green wood.
- 64. Use solar power for home and water heating.
- 65. Use low-VOC or water-based paints, stains, finishes and paint strippers.
- 66. Purchase radial tires for your vehicle and keep them properly inflated.
- 67. Paint with brushes or rollers instead of using spray paints to minimize harmful emissions.
- 68. Ignite charcoal barbecues with an electric probe or other alternative to lighter fluid.

69. If you use a wood

stove, use one sold after 1990. They are required to meet federal emissions standards and are more efficient and cleaner burning.

- 70. Walk or ride your bike instead of driving, whenever possible.
- 71. Join a carpool or vanpool to get to work.

Ways to use less water

72. Check and fix any water leaks.

73. Install water-saving devices on your faucets and toilets.

- 74. Don't wash dishes with the water running continuously.
- 75. Wash and dry only full
- loads of laundry and dishes. 76. Follow your community's

water use restrictions or guidelines.

- 77. Install a low-flow shower head.
- 78. Replace old toilets with new ones that use less water.
- 79. Turn off washing machine's water supply to prevent leaks when away on vacation.
- 80. Fill a half gallon jug with water and place in the toilet tank to reduce water used in flushing.

Ways to protect our water

- 81. Revegetate or mulch disturbed soil as soon as possible.
- 82. Never dump anything down a storm drain.
- 83. Have your septic tank pumped and system inspected regularly.
- 84. Check your car for oil or other leaks, and recycle motor oil.
- 85. Take your car to a car wash instead of washing it in the driveway.
- 86. Learn about your watershed.

Centralina Council of Governments 1300 Baxter Street, Suite 450 Charlotte, North Carolina 704/348-2730 clewis@centralina.org

Create less trash

- 87. Buy items in bulk from loose bins when possible to reduce the packaging.
- 88. Avoid products with several layers of packaging when only one is sufficient. About 33% of what we throw away is packaging.
- 89. Buy products that you can reuse.
- 90. Maintain and repair durable products instead of buying new ones.
- 91. Check reports for products that are easily repaired and have low breakdown rates.
- 92. Reuse items like bags and containers when possible.
- 93. Use cloth napkins instead of paper ones.
- 94. Use reusable plates and utensils instead of disposable ones.
- 95. Use reusable containers to store food instead of aluminum foil and cling wrap.
- 96. Shop with a canvas bag instead of using paper and plastic bags.
- 97. Buy rechargeable batteries for devices used frequently.
- 98. Reuse packaging cartons and shipping materials. Old newspapers make great packing material.
- 99. Compost your vegetable scraps.
- 100. Buy used furniture there is a surplus of it, and it is much cheaper than new furniture.

100 ways you can improve the environment

In your home—conserve energy

- 1. Clean or replace air filters on your air conditioning unit at least once a month.
- 2. If you have central air conditioning, do not close vents in unused rooms.
- 3. Lower the thermostat on your water heater to 120°.
- 4. Wrap your water heater in an insulated blanket.
- 5. Turn down or shut off your water heater when you are away for extended periods.
- 6. Turn off unneeded lights even when leaving a room for a short time.
- 7. Set your refrigerator temperature at 36° to 38° and your freezer at 0° to 5° .
- 8. When using an oven, minimize door opening while it is in use; it reduces oven temperature by 25° to 30° every time you open the door.
- 9. Clean the lint filter in your dryer after every load so that it uses less energy.
- 10. Unplug seldom used appliances.
- 11. Use a microwave whenever you can instead of a conventional oven or stove.
- 12. Wash clothes with warm or cold water instead of hot.
- 13. Reverse ceiling fans for summer (counter clockwise) and winter (clockwise) as recommended.
- 14. Purchase appliances and office equipment with the Energy Star label; old refrigerators use up to 50% more electricity than newer models.
- 15. Use compact fluorescent light

bulbs—they use 75% less energy and last 10-13 times longer than ordinary bulbs. 16. Keep your thermostat at 68° in winter and 78° in summer.

- 17. Keep your thermostat higher in summer and lower in winter when you are away from home.
- 18. Insulate your home as best as vou can.
- 19. Install weather stripping around all doors and windows.
- 20. Plant trees to shade your home and AC unit.
- 21. Have a home energy audit done.
- 22. Replace old windows with energy efficient ones.
- 23. Connect your outdoor lights to a timer.
- 24. Buy green electricity electricity produced by low - or even zero-pollution facilities (NC GreenPower www.ncgreenpower.org).

In your home—reduce toxicity

- 25. Eliminate mercury from your home by purchasing items without mercury, and dispose of items containing mercury at an appropriate drop-off facility when necessary (e.g., old thermometers).
- 26. Learn about alternatives to household cleaning items that do not use hazardous
 - chemicals-consider alternatives like baking soda, scouring pads, water or a little more elbow grease.
- 27. Buy the right amount of paint for the job, but if you have leftover materials

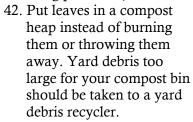

share with neighbors, charities or theater groups.

- 28. When no good alternatives exist to a toxic item, find the least amount required for an effective, sanitary result.
- 29. If you have an older home. have paint in your home tested for lead. If you have lead-based paint, cover it with wall paper or other material instead of sanding it or burning it off.
- 30. Use traps instead of rat and mouse poisons and insect killers.
- 31. Have your home tested for radon.
- 32. Use cedar chips or aromatic herbs instead of mothballs.

In your yard

- 33. Avoid using leaf blowers and other dust-producing equipment.
- 34. Use an electric lawnmower instead of a gas-powered one.
- 35. Leave grass clippings on the yard they decompose and return nutrients to the soil.
- 36. Use recycled wood chips as mulch to keep weeds down, retain moisture and prevent erosion.
- 37. Use only the required amount of fertilizer.
- 38. Create a wildlife habitat by planting native or drought resistant plants.
- 39. Water grass before 7 am.
- 40. Rent or borrow items like ladders and chain saws that are seldom used.
- 41. Take actions that use non-hazardous

components (e.g., to ward off pests, plant marigolds in a garden instead of using pesticides).

In your office

- 43. Copy and print on both sides of paper.
- 44. Reuse items like envelopes, folders and paper clips.
- 45. Use mailer sheets for interoffice mail instead of an envelope.
- 46. Set up a bulletin board for memos instead of sending a copy to each employee.
- 47. Use e-mail instead of paper correspondence.
- 48. Print in "draft" format to conserve ink.
- 49. Use recycled paper.
- 50. Use discarded paper for scrap paper.
- 51. Encourage your school and/or company to print documents with soybased inks, which are less toxic.
- 52. Use a ceramic coffee mug instead of a disposable cup.
- 53. Use the stairs instead of the elevator.
- 54. Shut off electrical equipment in the evening when you leave work, including your computer monitor.
- 55. Recycle printer cartridges.
- 56. Ask your employer to consider flexible work schedules or telecommuting.
