

FEDERAL GRANTS ANNUAL FORECAST (UPDATED: December 31, 2019)

FY 2020, OCT 2019 -SEPT 2020, by Quarter

NOTE: Most links below are from the last funding opportunity announcement (deadline has passed), so some may become archived, but this information is provided to help you begin preparing in advance of the upcoming application process because requirements often do not change substantially year-to-year. In some cases, federal agencies have forecasted plans for the next competition. When that information has become available, those dates and related links are provided and the current year funding opportunity is provided in parenthesis so you can find it on grants.gov. This chart will be updated regularly as new information becomes available. **NOTE:** Some grants have been removed if it has been determined that grant is likely no longer available. Other grants have been added if notices were posted since last forecast was published. **Be sure to check the end for updates in red on current deadlines!** And, as always, you can call me anytime for help with finding grants or tracking down more information. -- **Leslie Mozingo, leslie@strategics.consulting, (202) 255-5760.**
