INTRODUCTION

Centralina Council of Governments leads regional collaboration and sparks local action to expand opportunity and improve quality of life. We do this through creative problem solving, innovative service delivery and support to our local governments. Centralina's six departments and associated boards are dedicated to this mission of public service with a regional spirit.

Each community in the nine-county Centralina region is unique, but we share a common set of challenges. We believe that our region thrives when we work together, unified by a common mission for expanding opportunity and improving quality of life. The strong fabric of cooperation, woven by over 50 years of regionalism, must be sustained through robust implementation of localized solutions.

Our Regional Goals

As one of the fastest-growing metro areas in the country, Centralina has a diverse set of guiding plans¹ for the region; with limited resources and capacity, it is critical to prioritize within the ongoing implementation of these plans. We must also respond to the evolving needs of the region, local communities and the individuals that we serve. Last year we worked with the Board of Delegates, Regional Managers and partners across the region to set seven cross-cutting goals to guide our work over three years (2019-2022):

1. **Growth:** Manage cross-jurisdictional collaboration for coordinated regional growth
2. **Mobility:** Expand regional mobility choices and connections
3. **Health:** Improve the health and resilience of individuals, communities and our region
4. **Economic development:** Facilitate business and infrastructure investments in our local communities and regional economy
5. **Talent:** Provide talent tactics and solutions for a qualified and competitive workforce
6. **Innovation:** Support and champion our local governments
7. **Operations:** Enhance Centralina operations, infrastructure and partnerships

Centralina departments have designed workplans for FY21 that advance these goals through specific strategies and implementation tactics. Funding to support our work comes from federal, state and local sources; the Centralina Executive Board will review and approve FY21 workplan in June 2020 and corresponding budget amendments throughout the fiscal year.

¹ CONNECT our Future Regional Growth Strategy (2015); Prosperity for Greater Charlotte Comprehensive Economic Development Strategy (2017-2022); Centralina Area Agency on Aging Area Plan (2020-2024); and the Centralina Workforce Development Board Annual Plan

GOAL 1: Manage cross-jurisdictional collaboration for coordinated regional growth

We work across borders to support regional growth and economic development.
