CENTRALINA REGIONAL RECOVERY SUMMIT

Building Community Resilience Through Disaster Recovery

September 9TH, 2021
10AM—12PM

This live virtual event will feature discussions with disaster recovery experts from across North Carolina. Representatives from state and local government and nonprofit organizations will share their experiences, addressing the many challenges of rebuilding sustainable and equitable communities following large-scale disasters.

We invite local government leaders and elected officials, emergency managers, social service providers, urban planners and economic development staff to attend and encourage nonprofit and community-based organizations working in or supporting the Centralina region to join the conversation.

If you have questions about the Regional Recovery Summit event, please contact Christina Danis at CDanis@Centralina.org or Connor Choka at CChoka@Centralina.org.
