

# Emergency Preparedness Table Top Exercise Support Software

**Centralina has joined with Beehive to provide limited no-cost high-quality AI powered tabletop software and training materials to bolster regional hazard readiness.**

Beehive was developed by High Street Consulting to help emergency managers streamline exercise planning, improve coordination, and deliver more consistent, high-quality training.

## THE CHALLENGE

Planning and running emergency tabletop exercises is time-consuming and requires a lot of coordination:

- 6-12 weeks to plan a single exercise
- 100+ staff hours required
- Coordinating multiple agencies is complex
- Must meet FEMA HSEEP and EMAP requirements.\*

## WHY IT MATTERS

- Plan exercises faster
- Reduce staff workload
- Improve coordination and shared knowledge
- Track real outcomes
- Increase engagement and ability to conduct table top exercises to support preparedness needs

## THE BEEHIVE SOLUTION

Beehive is a secure platform that helps emergency managers plan, develop, and manage exercises faster. It can reduce planning time and table top exercise event costs by up to 70%

- Designed for a whole community approach to meet FEMA and EMAP criteria\*
- Able to be customized to meet local concerns and regional needs

## WHAT CENTRALINA IS OFFERING

- No-cost one year Beehive Administrator access to approved counties and entities
- Beehive Table Top Training materials and technical support
- Improve coordination
- Peer Learning for regional readiness needs

## KEY BENEFITS

### Faster Planning

Cut development time by up to 70%

### Better Outcomes

Track improvements and readiness overtime

### Government Ready

Built for federal, state and local use

### Secure IT Integration

Works with existing systems & security measures

TO LEARN MORE ABOUT BEEHIVE

## HOW IT WORKS

### Plan Faster

- Guided workflows
- Pre-built HSEEP templates
- Automated scheduling

### Collaborate Easily

- Shared multi-agency workspaces
- Real-time and asynchronous input
- Role-based access

### Simplify Documentation

- Auto-generated SitMans, AARs, EEGs
- Secure document storage
- Audit-ready records
